

GCCS-A FUNDING

- OMA FUNDING -

00-05 OMA is 30%
of Fully Funded
\$44.9M POM OMA UFR

FUNDING

- Issues

-

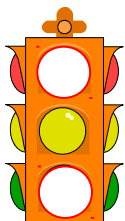

- **RDT&E**
 - Shortage in FY00
 - Limited funding after FY 03 will allow no new functionality, only minor enhancements
- **OMA**
 - Very limited OMA starting in FY 01
 - Severely restricts software maintenance
 - No funding to sustain RTCs after FY 00

DTLOMS

- Doctrine -

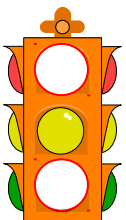

- **Today**

- **Driven by Joint Doctrine**
- **Existing TTPs based on legacy systems**
- **PM provides Quick Reference Guide**
- **TTPs are site specific**

- **Tomorrow**

- **Program Interfaces & Database may be impacted by**
 - **JOPES Redesign Effort**
 - **Evolving RSO&I doctrine (FM 100-17-3)**
- **Standardized TTPs**

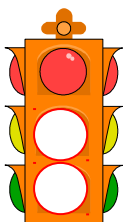

DTLOMS

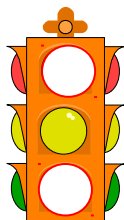

- Training -

- **Today**

- Limited existing embedded training capabilities
- Interfaces to simulations not yet developed
- Significant technical pre-requisites required for System and Database Administrators

- **Tomorrow**

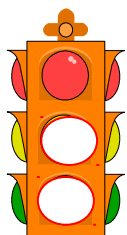

- Embedded training capabilities in new software
- Interfaces to simulations
- Separate operational and training databases
- Greater reliance on NT based applications
- ABCS System Administration training at Signal Center

DTLOMS

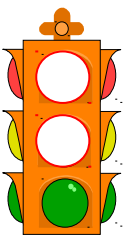

- Leader Development -

• Today

- No TRADOC School House
- No exposure to GCCS-A in TRADOC Schools
- War College has incorporated GCCS
- CGSOC offers GCCS/JOPES as an elective

• Tomorrow

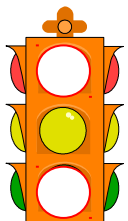

- Focus on Senior Leader and NCO Schools
- Embed GCCS-A into CGSOC and War College
- Increase Theater-level play in CGSOC

DTLOMS

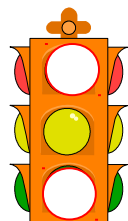

- Organization -

- **Today**

- **Eleven unique sites with different missions**
- **Mix of TOE and TDA organizations**

- **Tomorrow**

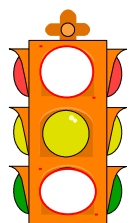

- **Army Component Command (ACC) HQ TOE is being developed**
 - **Will include GCCS-A**
 - **Standardizes theater organizations**

DTLOMS

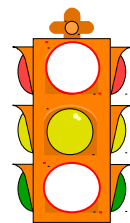

- Materiel -

- **Today**

- Eleven sites, each has a unique architecture
- Program is being pulled from two directions
 - Driven from the top by GCCS and DII COE
 - Driven from the bottom by ABCS

- **Tomorrow**

- Goal is to merge development with MCS
- Funding
- Technical challenges

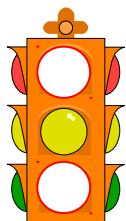

DTLOMS

- Soldiers -

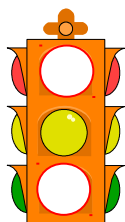

- **Today**

- General purpose user system
- Mix of civilian and military users
- System complexity = reliance on civilians for System and Database Administrators

- **Tomorrow**

- Establish ASI for System Administrators
- Incentives for retaining technical personnel
- Greater reliance on NT and COTS products

TRAINING SUPPORT PACKAGE

- *New Equipment Training* -

- **Contractor Trains-the-Trainers for each delivery**
- **Contractor provides training products for GCCS-A**
 - **POIs for System Administration**
 - **POIs for applications**
 - **POI for Basic Overview Course**
 - **Quick Reference Guide**

TRAINING SUPPORT PACKAGE

- Sustainment Training -

- **Improve embedded training in new software**
 - **On-line User Manuals**
 - **Context Sensitive Help**
- **Provide separate operational and training databases**
- **Add simulation interfaces**

TRAINING SUPPORT PACKAGE

- Issues -

- **System Training Plan (STRAP)**
 - **TRADOC DCST non-concurred**
 - **RTCs not a TRADOC mission**
 - **View RTCs as sustainment training**
 - **Non-MOS producing**
 - **Unit responsibility**
- **Actions**
 - **Relook training roles and responsibilities**

PM	Unit/sites
TRADOC	Signal Center
 - **Consolidate with GCCS training?**
 - **Revise STRAP**

OTHER ISSUES

- **GCCS to Corps**

- **HQDA directed fielding of GCCS to Corps**
 - **Support Corps when designated a JTF or ASCC**
 - **Two suites to each Corps (Suite = 2 servers and 5 PCs)**
 - **Corps deploys suites as required**
 - **Training provided by DISA**
 - **Fielding schedule:**
 - XVIII - May 97
 - I - Dec 97
 - III - Jul 97
 - V - Mar 98
- **Working TOE changes**
- **Draft CONOPS distributed**

SUMMARY

- Bottomline -

- **Development Delays**
 - Migration more difficult than expected
 - Plan in place for single baseline
- **System Training Plan (STRAP) not approved**
 - Validating training requirements and options
 - Reviewing alternatives (Gov't and contract support)
 - Preparing revised STRAP
- **Funding**
 - Limited OMA (software maint. & training support)
 - Need strong TRADOC / DA support
